

Dear fellow trader,

I would like to personally invite you to attend an exclusive private weekend trading workshop I will be conducting on **Saturday 12th March 2011** in London from 9am till 6pm.

The focus of my workshop will be to provide you with the necessary skills and tools to help you succeed as a professional trader.

I am going to show you the exact techniques, strategies, methods and technology I use to select high probability trades on a daily basis.

The world's best traders are quietly using these same techniques. It is something that you should be using too.

Throughout the day, I will test you in different ways until I'm sure that you can immediately apply these techniques to your trading.

Attendance will be limited to a small group in order to guarantee the personalised attention required for you to master the material.

It is my goal to put on the best, most informative workshop possible. It will be hands on so that you can practise at the workshop to apply your new skills and knowledge. By attending, you will receive my undivided attention to ensure everyone in the group fully understands the powerful strategies I am going to teach you.

I strongly urge you to book early! Because of my schedule, I can only expect to conduct a few of these workshops this year. As with my previous workshops, I anticipate this one will sell out very quickly. Space is available on a first come, first serve basis.

If you are interested in becoming a professional trader and learning not only how to increase your profits, but also learning how to gain an edge in the markets, then please register immediately by emailing your full details to **sandy@signalpro.co.uk** or calling me directly on **020 8809 2427 or 07961 100303**.

I am looking forward to meeting you and working with you on **Saturday 12th March 2011**.

Kind Regards,

Sandy Jadeja
Chief Market Strategist
Head of Global Training

Would You Like To Learn Simple Trading Strategies Used By Top Traders To Professionally Trade The Financial markets?

Let Sandy Jadeja teach them to you in his 1-Day exclusive training programme.

In this rare and unique workshop, you will learn how to implement simple but powerful methods currently used by some of the world's leading successful traders.

Learn exact step-by-step techniques that you will be able to consistently and confidently apply to trading indices, stocks, and commodities.

These are just a few of the recent trades, which had given us low risk entries with good profit potential based on £10 / point:

September - Short entry on the Dow index - **Profit £2640 in 6 days.**

September - Long entry on Dow index - **Profit £1730 in 5 days.**

September - Short entry on CAT (US stock) - **Profit £3930 in 7 days.**

September - Short entry on GENZ (US stock) - **Profit £3500 in 5 days.**

August - Long entry on FTSE 100 index - **Profit £1520 in 6 days.**

August - Short entry on Crude Oil - **Profit £1090 in 4 days.**

Would you like to be able to learn how to find and take trades like these with confidence? You will see the actual charts of the above trades and more on the actual day when you join us. Also come and learn and be prepared in advance for current outlook and trade set-ups, and opportunities, which will give you low risk entries for similar results.

This is an incredibly powerful trading methodology.

You will learn the exact rules on how to enter markets and which price levels to buy. Then you will learn where to place your stops correctly and how to exit correctly.

Another important aspect we will cover is correct money management rules and how much money to place on each trade.

Everything will be kept very simple and will be taught at a relaxed pace so that you can fully understand all of the concepts.

Sandy Jadeja is a futures trader with over 24 years experience.

His expertise in the application of pattern trading with Fibonacci applications has made him a sought after consultant.

Course Contents:

- **Pattern Trading**
Watch and learn how to easily find 10 simple patterns, which occur repeatedly in the markets for consistent high return profits. These are NOT your standard head & shoulders or cup and handle patterns.
- **Fibonacci Price Projections**
Learn how to apply 4 powerful Fibonacci price projection techniques to forecast in advance very low risk turning points in the markets with a high degree of accuracy.
- **Risk Management with Spread betting**
Learn how to use spread betting for advanced money and risk management. Discover how even with small accounts you can take substantial positions with minimum risk.

Also you will...

- Know which software to use at low cost to set yourself up to capture these powerful trades.
- Learn how to quickly scan charts within seconds for potentials trade set-ups using a simple piece of software.
- Create a list of trades which provide high probability returns with low risk.
- Learn how to eliminate fear in trading and build confidence.
- Know how to simplify and automate your trading, by using the correct orders.

You simply cannot afford to miss this workshop.

Answers to your 5 most common questions...

Are these strategies difficult to learn?

Absolutely not! You should be able to begin trading immediately after completing this training programme. The programme starts off slow with the basics, and then moves on to powerful and simple-to-learn strategies. Each part of the course is designed to help you become a better trader.

Do I need to watch the screen all day to trade these strategies?

Not if you are position trading. In fact, I recommend that you first become proficient as an end-of-day trader before considering day-trading. The beauty of these strategies is that you simply find the signal a few minutes before the close of the markets and place your order ready for the next day.

Do these strategies work in all markets?

Yes it does and you will be shown examples throughout the course. We will cover, Stocks, Commodities and Indices.

If I have any questions after the course, can I get help?

Yes. I will also provide support after the workshop to answer any questions.

What is the cost of this programme?

For the Full 1 day programme the cost is £595.00

This includes:

- Course material with examples covered on the day + more
- A simple tool to calculate the BUY and SELL zones automatically
- Another tool to calculate your EXACT trade size

Other courses are charging £2000 - £4000. And provide you with a bulk of information with encyclopaedia style course material, which you will never use.

This course is very Simple, Practical, Professional and affordable.

Instead of overloading your mind with too much information, my aim is to teach you so that you can trade with simple tools, minimum information, and by keeping your losses smaller and profits bigger.

Testimonials

"He has a genuine desire to teach and train others to become successful people in trading and in life. His presentation is clear, and directly to the point. This was an exceptional opportunity to have a professional person share his ideas in an understandable way. I was more than impressed."

Axelle Decolnet

"After attending Sandy Jadeja's course, one thing is clear... his systematic approach, methodology and priceless wisdom will give you the edge for trading the financial markets."

Mark Shelton

I recently used the reversal signal that you thought me and I gained £4,000 in 2 days by shorting Dow futures, I am truly grateful. I look forward to meeting you for more lessons!

Jaye Akintola, PhD

"Sandy's course is worth thousands and much superior compared to other courses I have been to. But yet he is the first person I have met that genuinely cares in helping others to become successful traders. He even offered us further tuition after the course, which is unheard of in this industry. This workshop was really a life changing event for me."

Saria Younus"

Thanks once again for the great training course. You go the extra mile for your clients, which is far more than all the other trainers out there."

George Angelo

"Sandy, I just wanted to let you know that I have had more successful trades in the last 2 weeks than I have had in the last 6 months put together. Thank you."

Jason Bellevue

"This system is highly methodical because we always know well in advance at exactly what price we are going to get in the market. What our profit objectives are and also where we will exit if the market reverses its direction. Its simple and by far the best training course I have ever attended. I truly love it."

Alex Kan

"I have never come across a method like this, which requires minimum thinking. This is simply brilliant."

Sheila Bolton

"My investment in time and money has been paid of handsomely - Thanks Sandy."

Peter Byrne

"Takes the guesswork out of making money in the market."

Francis Leiton

"Everything you covered was of a very high value and contents which have never been explained in the manner you did were most informative, inspirational and entertaining. The presentation format was more than professional and highly descriptive. A standard that others should adhere to. Having paid for highly priced seminars in the past, I would gladly have paid you the money for the best trading seminar I have attended in the last few years."

Shaimil Patel

"Thank you so much for your seminar. As someone who's just starting out in investing I found it really interesting and useful."

James Davis

"A good insight of the various trades available that I was not really aware of before that could be relevant to me. By applying the system, shown to us by Sandy, to other markets, made me realise other opportunities I hadn't even considered before the workshop."

John Mason

"I thoroughly enjoyed the workshop and would most certainly like to attend further such events. In this game you can never have enough knowledge! I very much liked the small group size and felt that this was ideal."

Diarmuid Crean

"Thank you for a great day. I personally thought the course to be invaluable in terms of adopting a system that eradicates 10 years' worth of experience."

Neo Pedrithis

"Thank you Sandy and the team for an excellent afternoon. I've learned a lot and it answered many questions regarding when to enter and exit a trade and where to set stops."

Mike Raines

"I attended the workshop conducted by Sandy Jadeja and would like to say it was very informative and useful in particular the sections on signals and discipline.

I came away feeling more confident to trade."

Agnelo Rodrigues

"Sandy, Thanks for your seminar on Monday, I found it most useful, honest and practical and especially grateful that you did not have a heavy sales pitch !!"

Simon Tandy

"Just a quick note to say that I attended this seminar and thought it was excellent. Sandy is a very good presenter and he had clearly put a lot of time and effort into making this a very professional and interesting presentation."

Phil Green

"Hi Sandy, I really enjoyed your training seminar on Friday 11th Sept., and am now testing and proving it."

Michael Pope
